

# Instructions to be followed during Location Masters Standardization Process

Before making changes to Location masters first check the PRIs (Blocks /GPs /Villages) available in the online system directory. Compare these with the local present facts. Then identify what are all the PRIs (Blocks/GPs/Villages) to be Deleted/Added/Edited (Editing means changing the name of the PRI). After a through exercise prepare a list of changes to be made and then only start doing changes in the online system which can avoid further directory related problems.

**Please remember the following points while doing this task.**

1. Deleting a Block means all the GPs and Villages of that block automatically gets deleted.
2. First complete this exercise and then only go for SHG data entry with a proper Location Masters.
3. Similarly deleting a GP means all the Villages of that GP automatically gets deleted.
4. To avoid avoiding any mistakes (committed during this standardization exercise) directly getting reflected in live database we are storing all the changes in (being done by the users) temporary tables and these will be reflected in that live database only after receiving a forwarded mail to [mis-nrlm@nic.in](mailto:mis-nrlm@nic.in) from the concerned state MIS-NRLM nodal Officer which was initiated by the respective district.(i.e the district level officer after completing the entire exercise in their district sends a mail to MIS-NRLM Nodal Officer of their state which will be forwarded to us after a proper checking (of the changes done) at their level).
5. **The entries which are added will be shown in GREEN and entries which are deleted will be shown in RED and entries which are edited will be shown in ORANGE colour. Entries which are still not touched will be shown in BLUE colour.**

### Location Master Standardization

Download your District's Block, Gram Panchayat and Village Directory as

District	AMBALA
Block Name	NARAINGARH
Grampanchayat	BADI RASAUR

Village	
1	CHHOTI RASAUR HIMANSHU (Edited)
2	MANAKPUR (Deleted)
3	BADI RASAUR <a href="#">Edit</a> <a href="#">Delete</a>
4	MUBARAKPUR (New)

[Add Village](#) [Back](#)

6. If an entry is added/deleted/edited no further changes can be done to it.
7. Deletion of PRI is not allowed for which the SHG data is already entered.
8. Presently the option is made available for District level users only.

The initial screen for a district level user after logging in looks like this

File Find Disable View Images Cache Tools Validate | Browser Mode: IE9 Document Mode: IE9 standards

The list of Blocks and against each block there are two options Edit and Delete are shown. The Add Block option is shown at the end of the block list through a button.

Depending on the local browser settings one has to allow popups because the Edit and Add options takes new name through these popup windows.

After verifying the Block level entries for going to GP level entries select the respective Block name from the top Block Name dropdown which will be shown like this.
